

## Varonis Highlights Latest Products and Explores the Future of Cybersecurity at Gartner Security & Risk Management Summit 2018

May 30, 2018

NEW YORK, May 30, 2018 (GLOBE NEWSWIRE) -- [Varonis Systems, Inc.](#) (NASDAQ:VRNS), a pioneer in data security and analytics, will showcase its Data Security Platform, a fully integrated solution focused on protecting enterprise data stored on-premises and in the cloud, at the [Gartner Security & Risk Management Summit](#), June 4-6 in National Harbor, MD.

Stop by Booth #750 for demos of the Varonis [Data Security Platform](#) and [Varonis Edge](#), which extends data security from the core to the perimeter by analyzing devices such as DNS, VPN and web proxies to detect attacks. Join a breakout session exploring cybersecurity opportunities and challenges in our complex hybrid world of on-premises and in-cloud data stores.

### Varonis Highlights at Gartner Security & Risk Management Summit:

- **Visit Varonis:** During expo hours, stop by booth #750 for demos of Varonis' data protection solutions, giveaways and more during expo hours. Not attending the Gartner Security & Risk Management Summit? [Sign up](#) for a free Data Risk Assessment.
- **Session:** Hear Varonis' Tech Evangelist Brian Vecci present "*Turtles, Trust and the Future of Cybersecurity*" on Wednesday, June 6 at 3:15 pm, room Maryland D. Learn how a data-centric security approach can reduce risk, increase efficiency and re-engineer trust in a society where faith has been shaken by breaches.

### About Varonis

[Varonis](#) is a pioneer in data security and analytics, fighting a different battle than conventional cybersecurity companies. Varonis focuses on protecting enterprise data: sensitive files and emails; confidential customer, patient and employee data; financial records; strategic and product plans; and other intellectual property. The Varonis Data Security Platform detects insider threats and cyberattacks by analyzing data, account activity and user behavior; prevents and limits disaster by locking down sensitive and stale data; and efficiently sustains a secure state with automation. With a focus on data security, Varonis serves a variety of use cases including governance, compliance, classification, and threat analytics. Varonis started operations in 2005 and, as of March 31, 2018, had approximately 6,000 customers worldwide — comprised of industry leaders in many sectors including financial services, healthcare, public, industrial, insurance, energy and utilities, consumer and retail, education, media and entertainment and technology.
